1. Overview

Search locates existing CKYC records matching supplied criteria, across both Individual and Legal Entity customers. Send search criteria in plain JSON and receive matching CKYC records in plain JSON.

Each entity type supports a distinct set of search criteria, referred to as `searchOption` values.

2. Request Parameters

2.1 Headers

Header	Mandatory	Description
<code>transactionId</code>	No	Client-supplied identifier for tracking and logging. Echoed back in the response if present.

2.2 Request Body

Parameter	Type	Mandatory	Description
<code>ckycInq</code>	Object	Yes	Container for the search parameters

`ckycInq` Object

Parameter	Type	Mandatory	Description
<code>ckycType</code>	Enum	Yes	<code>INDIVIDUAL</code> or <code>LEGAL</code>
<code>searchOption</code>	Enum	Yes	Search criteria to be used. Valid values depend on <code>ckycType</code> .
<code>encryptedData</code>	Object	Yes	Search criteria in plain JSON. Contents vary by <code>searchOption</code> . Encrypted automatically before submission to the registry.

3. Search Criteria & Combinations

The `searchOption` values available depend on the `ckycType` of the record being searched for.

<code>ckycType</code>	Supported <code>searchOption</code> values
<code>INDIVIDUAL</code>	<code>OVD</code> , <code>CKYC</code> , <code>DEMOGRAPHIC</code> , <code>PHOTO</code> , <code>MOBILE</code> , <code>VC</code>
<code>LEGAL</code>	<code>OVD</code> , <code>DOI</code> , <code>MOBILE</code> , <code>CKYC</code>

3.1 Individual Search Options

Option	Criteria	Notes
OVD	One or more Officially Valid Documents (accepts an array)	PAN is submitted as <code>ovdType: C</code> , not a separate option. Supported types: Passport (A), Voter ID (B), PAN (C), Driving Licence (D), Aadhaar (E), NREGA Job Card (F), NPR Letter (G).
CKYC	14-digit CKYC number	—
DEMOGRAPHIC	Name, gender, date of birth, and relative details	<code>middleName</code> , <code>relativeMiddleName</code> , <code>relativeLastName</code> are optional. All other fields mandatory.
PHOTO	Name plus a base64-encoded photograph	Individual records only.
MOBILE	Mobile number	Exactly 10 digits, must not start with 0.
VC	Verifiable Credential alias	Format: <code>[FirstName].[LastName]</code> + last 3 digits of pincode + 2-character state code + a 5-character unique code + <code>@ckyc</code> . Max 80 characters.

3.2 Legal Entity Search Options

Option	Criteria	Notes
OVD	One or more registration/identification documents (accepts an array)	Supported IDs: PAN, GSTIN, CIN, LLPIN.
DOI	Constitution, entity name, and date of incorporation	All three fields mandatory. Date in <code>DD-MM-YYYY</code> .
MOBILE	Mobile number	—
CKYC	14-digit CKYC number	—

One search option per call. A single request uses exactly one `searchOption` value from the table applicable to the supplied `ckycType` .

4. Responses

Every response, success or failure, follows a common envelope:

```
{
  "status": "success" | "failure",
  "statusCode": "<string>",
  "metaData": {
    "requestId": "<generated>",
    "transactionId": "<echoed if supplied, else null>"
  },
  "result": { "...status-code-specific fields..." }
}
```

4.1 Response Scenarios

Status Code	Category	Trigger
200	Success	Match(es) found
400	Validation Failed	A required field is missing, invalid, or not applicable for the given search combination
403	Forbidden	The calling application is not authorized for this deployment
404	Record Not Found	No matching record found for the supplied criteria
422	Match Limit Exceeded	The supplied mobile number is linked to more than 5 CKYC records
500	Internal Server Error	An unexpected internal error occurred
502	Service Unavailable	The registry is temporarily unreachable
503	Service Unavailable	The Search service itself is temporarily unavailable

4.2 Success Response Fields

Field	Description
result.reId	FI code of the Reporting Entity
result.timestamp	Response timestamp, ISO 8601, UTC
result.ckycType	Echoed from the request. <code>INDIVIDUAL</code> or <code>LEGAL</code>
result.message	Human-readable description of the result
result.data.searchKey	Identifier for this search. Valid for 15 days, and required when creating a new record from a search that found no match.
result.data.results	Array of matching CKYC records. Always an array, even for a single record.
result.data.page / pageSize / total / totalPages	Pagination details for the result set

Result Fields: Individual

Field	Type	Description
ckycRefNo	String	CKYC reference number
fullName, firstName, middleName, lastName	String	Name fields
gender	String	Gender
photo	String (Base64)	KYC photograph
photoExt	String	Photo file extension
photoId	String (Numeric)	Photo identifier for the CKYC number
mobile	String	Mobile number, masked
email	String	Email address, masked
docSubmitted	Array of objects	docName, docType
lastUpdateDate	String	Date the record was last updated
status	String	ACTIVE, INACTIVE, DEACTIVATED
remark	String	Additional remarks
matchedOvdType	String	OVD type matched on
matchedOvdNumber	String	OVD number that produced the match

Result Fields: Legal Entity

Structurally similar to Individual, with `name` in place of the individual name fields, plus `cin` and `dateOfRegistration`. `docSubmitted` carries `ckycNo`, `docCategory`, `docId`, `docName`, `docType`.

Account Type Prefixes on ckycRefNo

Prefix	Account Type
None	Normal account
S	Small account
L	Simplified Measures account
O	Aadhaar OTP-based e-KYC in non face-to-face mode
M	Minor account
X	Deceased. Record cannot be downloaded.

4.3 Error Response Fields

Field	Description
result.errorCategory	Stable machine-readable error code. See table below.
result.error	Human-readable error message.
result.fieldErrors	Present only for <code>400</code> responses. An array identifying exactly which field(s) failed and why.

Status Code	errorCategory
400	VALIDATION_FAILED
403	APPID_NOT_ALLOWED
404	RECORD_NOT_FOUND
422	MATCH_LIMIT_EXCEEDED
500	INTERNAL_SERVER_ERROR
502	CERSAI_UNAVAILABLE
503	SERVICE_UNAVAILABLE

5. Sample Requests

5.1 Individual

OVD

```
{
  "ckycInq": {
    "ckycType": "INDIVIDUAL",
    "searchOption": "OVD",
    "encryptedData": {
      "ovdDetails": [
        { "ovdNo": "8111", "ovdType": "E", "fullName": "Rajesh Sharma", "dob": "10-05-1995", "gender": "M" },
        { "ovdType": "C", "ovdNo": "AQAPD6079Q" }
      ]
    }
  }
}
```

CKYC Number

```
{
  "ckycInq": {
    "ckycType": "INDIVIDUAL",
    "searchOption": "CKYC",
    "encryptedData": { "ckycNo": "11223344556677" }
  }
}
```

Demographic

```
{
  "ckycInq": {
    "ckycType": "INDIVIDUAL",
    "searchOption": "DEMOGRAPHIC",
    "encryptedData": {
      "firstName": "Ramesh",
      "middleName": "Kumar",
      "lastName": "Sharma",
      "gender": "M",
      "dob": "15-01-1990",
      "relation": "Father",
      "relativeFirstName": "Rajesh",
      "relativeMiddleName": "Kumar",
      "relativeLastName": "Sharma"
    }
  }
}
```

Photo

```
{
  "ckycInq": {
    "ckycType": "INDIVIDUAL",
    "searchOption": "PHOTO",
    "encryptedData": {
      "firstName": "Ramesh",
      "middleName": "Kumar",
      "lastName": "Sharma",
      "b64Photo": "<base64 encoded photo>"
    }
  }
}
```

```
}  
}  
}
```

Mobile

```
{  
  "ckycInq": {  
    "ckycType": "INDIVIDUAL",  
    "searchOption": "MOBILE",  
    "encryptedData": { "mobile": "9999888877" }  
  }  
}
```

Verifiable Credential

```
{  
  "ckycInq": {  
    "ckycType": "INDIVIDUAL",  
    "searchOption": "VC",  
    "encryptedData": { "ckycAlias": "Sandeep.sharma2727943242@ckyc" }  
  }  
}
```

5.2 Legal Entity

Document ID

```
{  
  "ckycInq": {  
    "ckycType": "LEGAL",  
    "searchOption": "OVD",  
    "encryptedData": {  
      "documentIds": [  
        { "id_type": "01", "id_number": "75EE0KH5828J1ZH" },  
        { "id_type": "C", "id_number": "EE0KH5828J" }  
      ]  
    }  
  }  
}
```

Entity Formation Date

```
{  
  "ckycInq": {  
    "ckycType": "LEGAL",  
    "searchOption": "DOI",  
    "encryptedData": {  
      "constitution": "Public Sector Bank",  
      "entityName": "ABC Pvt Ltd",  
      "doi": "15-08-2010"  
    }  
  }  
}
```

Mobile

```
{  
  "ckycInq": {  
    "ckycType": "LEGAL",  
    "searchOption": "MOBILE",  
    "encryptedData": { "mobile": "8888888888" }  
  }  
}
```

CKYC Number

```
{  
  "ckycInq": {  
    "ckycType": "LEGAL",
```

```
"searchOption": "CKYC",
"encryptedData": { "ckycNo": "98700000000439" }
}
}
```

6. Sample Responses

6.1 Success

200 Success

```
